Experience

Adhir Info, Jamnagar

1 Year 10 Months (MAR 2023 – DEC 2024)

Full Stack Developer

- Designed and developed ERP, logistics, and HR management modules including BPR, payroll, attendance, leave management, and E-Way Bill automation using Django and Python.
- Utilized NumPy and Pandas for data analysis, reporting, and visualization of attendance, logistics, and business analytics to improve operational efficiency and decision-making.

Projects

Airbnb Clone, 2025

- Built a full-stack property rental and booking platform using Node.js, Express.js, and MongoDB. Implemented user authentication, property listings, image uploads, reviews, and booking management with a responsive user interface.

Express.js | Node.js | MongoDB | EJS | Cloudinary

JourneyHub Logistics (BCA Sem-06 projects), 2025

- Built an ERP-style web application using ASP.NET and SQL Server for transport management. Included features like order tracking, truck and driver assignment, route planning, and timing reports to streamline logistics operations.

ASP.NET | SQL SERVER | HTML | CSS

Bhavan's Shri A. K. Doshi Mahila College, Jamnagar (akdmc.org), 2024

- Built and deployed a scalable, responsive website using Django, featuring a custom admin panel and user-friendly interface

Python (Django , NumPy) | MySQL

Tejaswini Energy, Jamnagar (tejaswinienergy.in), 2024

- Designed and deployed a Django-based website with features like inquiry forms, customer reviews, and a solar wattage calculator. Built a robust admin panel for content and user management.

Python (Django , NumPy) | MySQL

Education

B. H. Gardi College of Engineering and Technology, Rajkot

2025 – Present

Master of Computer Applications (MCA) — GTU | Semester 1 | CPI : 8.75

Bhavans' Shree H.J. Doshi Information Technology Institute, Jamnagar
